Mahidol University
Wisdom of the Land

Hello Thailand

Thailand is one of the world's most popular travel destinations, and it's easy to see why! People come from all over the world for unforgettable experiences, relaxing vacations, exceptional hospitality, and, of course, our famous cuisine.

These are just the tip of the iceberg; there are a plenty of other activities and perspectives waiting to be discovered as an insider. When you join the Sawasdee Thailand Summer Program, your Pad-Thai will never taste the same again!

Hello MU

- **A chance to learn from the best of both old and new:** Thailand's oldest higher education institution. Since our establishment in 1888 as Thailand's first medical college, we have expanded to offer a wide range of disciplines, covering advanced technology in health sciences, science and technology, and even music.
- **Ideal campus for living and learning:** A natural and evergreen environment. as the most eco-friendly University in Thailand, we care about energy-efficient usage, waste & water management, green open spaces, as well as cycling lanes, and a pedestrianized landscape.

- **Trips and cultural activities:** Experience Thai culture through Thai cooking class, Thai dancing class, Thai boxing, and more!
- **Strong support from the moment you arrive:** Don't worry about anything. Airport or SHA++ hotel pick up & drop off, student buddy system, on-campus facilities, and on-campus health service. Our staff and students are gracious hosts who will make you feel welcomed and comfortable.
