MUSAIS Organizes the "Postcard Traveling" Activity for MU Students

Twenty Mahidol University students (both Thai and international students) were chosen to participate in the "Postcard Traveling" activity organized by MUSAIS (Mahidol University Student, Academic and International Services) from 7th- 30th April 2022. This activity involved sending weekly postcards from their hometowns and practicing their English writing skills. Students were encouraged to write about anything they wanted for their postcards, just as they would for pen pals. Self-introduction, tourist attractions, local food, and local festivals were among the topics discussed.

Mahidol University Welcomes the University of Southern Queensland

On 25th April 2022, **Assoc. Prof. Dr. Nopraenue Sajjarax Dhirathiti**, Vice President for International Relations and Corporate Communication, welcomed **Prof. Ren Yi**, Pro Vice Chancellor (International), University of Southern Queensland, Australia. The purpose of the visit was for **Prof. Ren Yi** to discuss future areas of collaboration between the University of Southern Queensland and Mahidol University.

BioDesign Competition on Medicine and Health for MUIC and Siriraj Students

Mahidol University International College (MUIC) and Mahidol University's Faculty of Medicine Siriraj Hospital organized The "SiIC (Siriraj-MUIC) BioDesign Competition on Medicine and Health". Three workshops were held in May, followed by a pitching day in June. On 25th April 2022, the trainers from MUIC and the Faculty of Medicine Siriraj Hospital provided an info session and also introduced the workshop team. This was followed by a Q&A session and a walking tour of the facilities. Competitors will be organized into groups of 3-5 members each with at least two majors from both faculties to present their scientific and innovative solutions on bio-design issues that will be very valuable for medicine, health, and innovations in medicine and interdisciplinary studies.
